

URBAN DEVELOPMENT INSTITUTE OF AUSTRALIA

UDIA

PROFESSIONAL DEVELOPMENT PROGRAM

SPECIALISING IN PROPERTY DEVELOPMENT & PROJECT MANAGEMENT

2021

DESIGNED TO MEET THE NEEDS OF WESTERN AUSTRALIA'S

URBAN DEVELOPMENT PROFESSIONALS

ABOUT UDIA

As the leading voice representing the urban development industry, UDIA is at the forefront of all things development in WA. With a history spanning over 40 years, the Institute is the preeminent body that promotes excellence and innovation in the creation of the urban environment in Western Australia. UDIA members work together to create vibrant, liveable communities and UDIA works tirelessly to represent members and present Government with evidence-based solutions that influence the policy decisions which impact industry and the growth of WA as a whole.

Representing all aspects and sectors of the development industry (with a particular emphasis on residential development, focusing on both land and built form/infill projects); UDIA facilitates essential discussion and debate, fosters a connected industry, and works with all levels of government to achieve positive outcomes in the areas of planning, design, infrastructure, tax and the environment. Together, UDIA members imagine, plan and build the cities and urban environments, for current and future generations of Western Australians.

Here in WA, we have over 300 member companies (4,500+ individuals) who represent the entire development industry; developers, financiers, planners, builders, state agencies, local government and all of the essential service providers involved in development more broadly. We run over 50 events a year dedicated to fostering a connected and informed industry.

A key role of the UDIA lies in educating and up-skilling members of the Western Australian urban development industry. With our suite of specialised professional development courses, we provide practical and theoretical insight to give professionals the skills, confidence and know-how required to thrive in the business world.

All of our courses and training programs are specifically tailored to meet the needs of professionals operating within the local urban development industry. Therefore, participants benefit from highly relevant content, valuable networking opportunities, and critical learnings, which will take them further in their careers.

With thanks to our Venue Sponsor-

With thanks to our Program Partners-

ABOUT THE PROGRAM

Purpose

Introduce participants to the various areas of knowledge required to operate effectively in Western Australia's urban development industry.

Learning outcomes

- Manage development industry roles with increased productivity and efficiency
- Learn to define and manage projects, while becoming familiar with terminology from the broad range of disciplines and concepts involved in property development
- Gain a practical understanding of the tools needed to navigate through complex development processes and the different roles within a project team
- Connect to expert, on the ground residential property development professionals, in a real-time environment

Who should attend?

- Graduates
- Individuals new to urban development or seeking advancement
- Assistant development or project managers
- Local and state government employees
- Finance managers
- International or interstate developers seeking local knowledge
- Industry professionals with a single discipline qualification seeking a broader understanding of the urban development industry (such as consultants, planners, asset managers, property analysts, economists, engineers, architects, lawyers, accountants, marketers and administrators)

BENEFITS

Benefits for participants

- A Western Australian designed course to suit local requirements
- Experienced presenters from the Western Australian property development industry
- Networking opportunities to make new contacts and gain valuable insight on how the industry works and to engage stakeholders
- Practical lessons on how to manage the project life-cycle and understand the principles of commercial awareness, time, quality and cost
- Delegates who complete all 6 modules are able to apply for the Diploma of Project Management from Swinburne University (refer to page 13 onwards)

Benefits for employers

This program empowers participants to excel in the property development industry, make informed decisions and minimise miscalculations.

- Up-skills your employees
- Ensures employees are aware of all facets of the development process
- Minimises miscalculations

BENEFITS

Official Registered Provider with the CPD Standards Office

The Urban Development Institute of Australia is an official Registered Provider with the CPD Standards Office. Any Delegate that attends the UDIA Property Development Program may be issued with a CPD Certificate of Attendance, which they can subsequently use with their formal CPD record for a professional body, institute or employer.

The CPD Standards Office
CPD PROVIDER: 21465

PROGRAM PATHWAYS

Study pathways

The UDIA Professional Development Program is aligned to the BSB51415 Diploma of Project Management delivered by Swinburne University of Technology.

This means that upon completion of at least four modules of the program, including Module 4: Project Management, participants may submit their portfolios of evidence and apply for Recognition of Prior Learning (RPL), to be awarded the Diploma of Project Management delivered by Swinburne. Upon successful completion of the RPL process, the Diploma of Project Management delivered by Swinburne will be awarded to the participant without any further study required.

The Diploma of Project Management delivered by Swinburne is endorsed by the Australian Institute of Project Management.

Benefits of RPL with Swinburne

UDIA participants may be eligible to be awarded the Diploma of Project Management (BSB51415), after undergoing the RPL process.

To be awarded the Diploma, students must submit a portfolio of evidence for assessment upon completion of at least four modules of the UDIA Professional Development Program, including Module 4: Project Management. Swinburne University of Technology will provide you with one-on-one expert advice and support you with your portfolio and evidence of experience. Further details about the portfolio of evidence is available in the [information pack available on the UDIA website](#).

This offering is exclusively available to professionals who complete at least four modules of the UDIA Professional Development Program, including Module 4: Project Management.

Please note terms, fees & conditions apply.

About Swinburne University

Swinburne University of Technology is ranked in the top 3% of the world's universities (Academic Ranking of World Universities 2016). With campuses in Melbourne, Australia and in Sarawak, Malaysia, the prestigious and rapidly growing institution is known for leading the way in science, technology, business, design and innovation.
