LEAD YOUR INDUSTRY

UDIA WA STANDING ADVISORY GROUPS & OTHER COMMITTEES

NOMINATION KIT 2022-2023

Urban Development Institute of Australia
WESTERN AUSTRALIA

A FRESH APPROACH TO MAKING CHANGE

UDIA WA are the leading organisation representing the urban development industry.

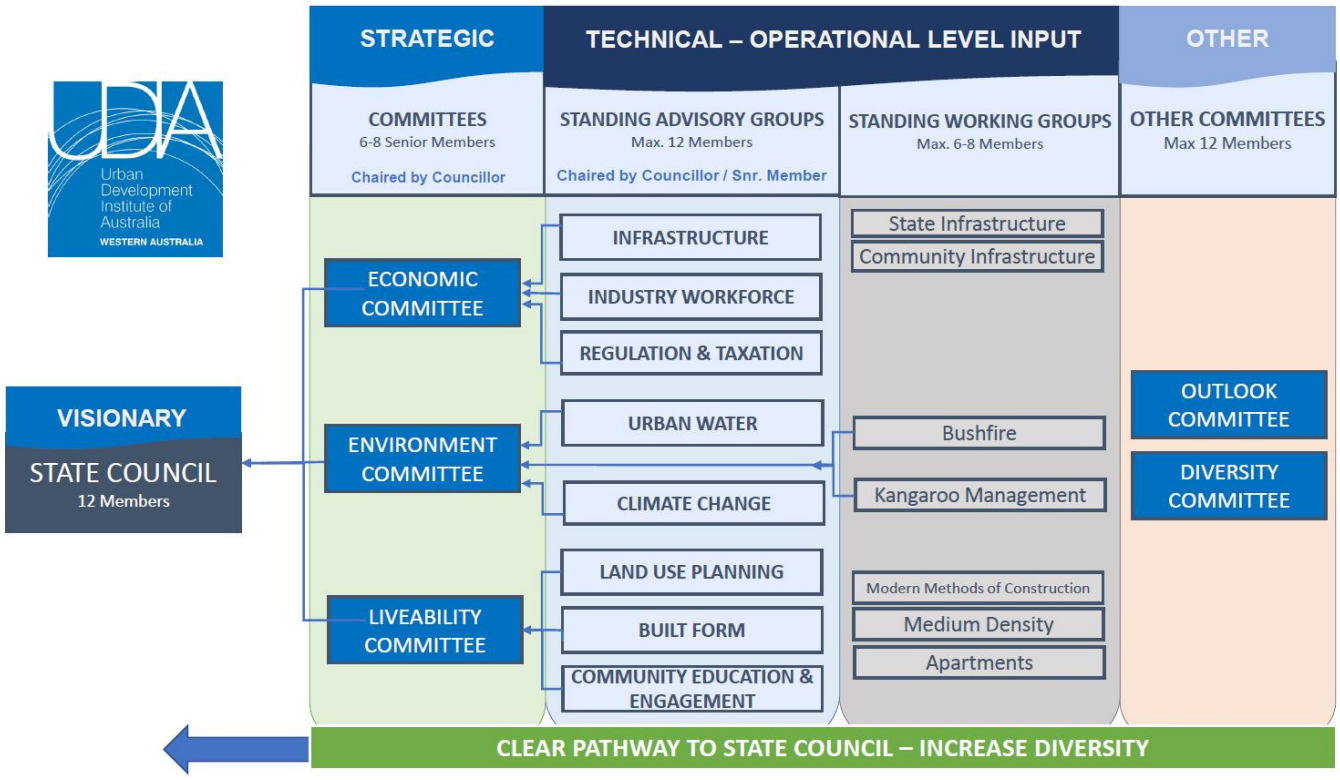
We are a collective of community creators. We are also a collective of leaders, passionate about delivering better places for Western Australians to live, work, play and invest.

Our policy platform is built around three key pillars: Economy, Environment & Liveability. These three core priorities drive our approach towards creating sustainable, liveable communities.

In 2021, the UDIA WA Council endorsed a revised governance structure to ensure structural strategic alignment throughout the organisation and a laser focus on achieving our goals.

In addition to UDIA WA Council, three new Strategic Committees have been formed in alignment with our policy pillars. These committees will be supported by advisory groups aligned with the current committee structure.

UDIA WA are now calling for nominees from across the industry, from a diverse range of skills and backgrounds to come forward and nominate for a number of positions on the Standing Advisory Groups that will support the Strategic Committees.



The role of UDIA WA Council

The purpose of the Council, on behalf of Members of the Institute is to set the strategic direction and policy priorities of the organisation. It is the Council's responsibility to ensure it governs with excellence and effectively oversees the performance of the business through the Chief Executive Officer. There are 12 members of Council, with a minimum of six to be Developer Members.

The President and Councillors are appointed by nomination from member representatives. Terms are two years, with the option for current Councillors to re-nominate. At least half of the Council will be spilled each year. Nominees must have extensive experience in senior roles, with a sound understanding of corporate governance.

The role of Strategic Committees

Three new Strategic Committees are being formed to bring the sharpest minds together from our membership to drive our policy platform forward in our three key focus areas. Each Strategic Committee will report to Council on the progress against the policy priorities, and rely on the expertise and input from the Standing Advisory Groups.

Our Governance Structure

The role of Standing Advisory Groups

The eight new Standing Advisory Groups are being formed to bring together experienced technical experts from our membership to offer detailed operational level input into the objectives covered under the three Strategic Committees.
